

EasyShower5 Option

The EasyShower5 shower system allows complete flexibility of movement in addition to thermostatic protection. Suitable for commercial healthcare applications the Easyshower5 adheres to CAT 5 water legislations and is KIWA approved.

Compared to a traditional shower pole style shower system the Easyshower5 relieves any potential obstacles or clashes when designing the bathroom layout as well as offering the carer and bather freedom of movement with the deck mounted features.

Key features and Benefits:

- KIWA approved deck mounted shower system
- Easy to control handset operation, trigger function especially useful to allow for intermittent water flow to suit bather and carer
- 1.5m easy clean hygienic hose located tap end
- Simple and safe temperature operation via sequential valve (factory set at 38°)
- Thermostatically controlled water flow protected by a TMV3 valve.
- Thermostatically controlled WRAS approved chrome lever bath filler as standard.
- EasyShower 5 system option on Gentona, Ezion, Torin, Talano and Alera 1700 sized baths.

KIWA approved back flow prevention device to Fluid Category 5 - Fluid which represents a serious health hazard because of the concentration of pathogenic organisms, radioactive or very toxic substances, including any fluid which contains – faecal material or other human waste: butchery or other animal waste: or pathogens from any other source.
